19 June 1956

25X1

MEMORANDUM FOR :

FROM : James O. Reber

25X1  
25X1

[redacted] and I talked with [redacted] this morning on the subject of the effects of requirements as stated below on Eastman's capabilities. The report follows:

(1) Air Force requirements for a print in lieu of a previously requested dupe negative for other than 70 MM.

Answer: No problem for Eastman unless Air Force desires prints cut. I am checking with Air Force on this and will report.\*

(2) 70 MM: Two dupe positives and two turn around prints (one for CIA and one for Air Force).

Answer: No problem for Eastman with regard to turn around prints. Only problem with regard to dupe positive is lack of current film stock. He is ordering stock today and it should be available within three to four weeks.

25X1

\* The Air Force now is agreeable to receiving their prints on a roll.

JAMES O. REBER
